Hi Lily,

I am not aware of any revisions to the Work Plans that are specific for the building surveys. Each FSSR has a Task Specific Plan attached as an appendix which describes the planned procedures they followed. They usually have a reference to the Base-wide Radiological Work Plan Revision 1 from 2007.

Subject: [Non-DoD Source] FW: Request documents - workplans re buildings

Dear Danielle,

I'm looking for any workplans that might have applied to work on buildings done during 2012. So this is the closest thing I have found so far. Most of the other workplans I've found relate to storm drains. Here is what I have found for buildings that might be relevant for this purpose. But I was not sure if any revisions would apply to work done during 2012. I have searched the Superfund Records Center and Envirostor and didn't see anything obvious. My next step was to look for FSSR's for these bldgs to see if they made reference to any other workplans that could have applied. But I didn't know if you could figure this out more easily.

FINAL

Hi Lily,

Can you be more specific? Which SAP are you referring to?

Dear Danielle,

I hope you are well. I'm not sure if you're still working.

Would you or someone else have time by early January, to help me find if I am missing some workplans for buildings? I am looking for any changes to the SAP during the time frame of January 2011 until October 2012. I'd appreciate your help.
